

# Supporting project controls and community services

## Calculated Controls LLC

Calculated Controls helps refinery owners and operators better execute periodic projects such as turnarounds using an optional three-prong approach. We help augment your staff during these events by providing highly trained and motivated project controls professionals. We use our field service experience to help with estimating, planning and scheduling. And, we can custom design and implement cloud-based data that puts vital information at your fingertips when and where you need it. Not only does our business model provide needed services to our industry but it also includes supporting local charitable services as well.

Members of the Calculated Controls' team recently joined other Deer Park, Texas, businesses in support of The Wheelhouse by becoming a sponsor and participating member of the annual Wheelhouse AltairStrickland charity golf tournament. One hundred thirty-two golfers teed-off and proudly putted their way to drive the most total funds raised ever in the event's 25-year history! More than \$40,000 was raised at the tourney that will help fund a new facility to assist men in overcoming their drug and/or alcohol addictions.

Calculated Controls' personnel later participated in the Annual Motorcycle "Road to Recovery" Rally in October also benefitting

Calculated Controls personnel participated in a golf tournament benefitting The Wheelhouse in Deer Park, Texas.

Calculated Controls also supported the "Road to Recovery" bike rally benefitting The Wheelhouse. More than 128 motorcyclists participated.

Dylan Childress, son of Calculated Controls' employee Whitney Childress, won third place Trout at the Zazu fishing tournament.

The Wheelhouse.

Calculated Controls personnel and their families also supported the Annual Zazu Fishing Tournament in Rockport, Texas, benefitting Camp Aranzazu. The camp provides year-round therapeutic recreation programs to children and adults with disabilities and/or chronic illnesses

and serves people in 42 Texas counties.

Being a good service provider to industry helps Calculated Controls to contribute to worthwhile services to enhance the lives of many deserving people across Gulf Coast communities.

## You. Us. Success.

We offer three areas of expertise to help you bring your next project or turnaround to a successful conclusion.

### Project Controls Resources

We provide the project controls resources necessary to augment your staff, including project controls managers, field planners, analysts and more. All have special skills, a verifiable work history and are trained to easily adapt to your methods, procedures and processes.

### Planning and Scheduling Services

We have a unique understanding of your needs because of our history in the field services industry. Properly estimating activities, sequencing the work and efficiently utilizing manpower are just part of how we assist you. We help with scope development, project and portfolio scheduling, bid package preparation and more.

### Cloud-Based Business Solutions

We help you get useful information from your data. We can take your data and design a specialized database specifically tailored to your business needs. With our system, you will receive real-time reporting through automated information delivery, easy "Google™-like" search capabilities, one-click collaboration and sharing, custom dashboards and more. Every company relies on data to run its business. The easier it is to turn data into information, the faster you can use that information to improve your business.

For more information, call 1-888-790-9398, e-mail [info@calculatedcontrols.com](mailto:info@calculatedcontrols.com) or visit [www.calculatedcontrols.com](http://www.calculatedcontrols.com).
